

**«Лес наш друг,  
или враг...»**

«Лес наш друг, или враг...».

И не сразу и не вдруг,  
мы узнали, лес – наш друг.

Нет без леса кислорода,  
сникнет сразу вся природа,  
без него дышать не сможем  
и никто нам не поможет.

A vibrant, cartoon-style illustration of a forest scene. In the center, a young girl with curly blonde hair, wearing a blue top and a red tutu, is running happily. To her right, a brown bear is walking, carrying a red apple and some nuts on its back. Further right, a small hedgehog is also walking, carrying a yellow fruit. A bee is flying near a pink flower, and a peacock is perched on a tree stump. On the left, a smiling sun is sitting on a tree stump, surrounded by flowers and a ladybug. A small yellow bird is on the ground near the girl. In the upper left, a colorful airplane is flying. The background is a light gray checkered pattern, suggesting a transparent area for text. The scene is framed by large green trees with bright sunlight filtering through the leaves.
